By  Hydro

Sapa E-frame for integrated electronics

Entry phones, access control systems, cameras, locks and connectors are some common examples of components fitted to modern entrances. Our E-frame profile simplifies the wiring, installation and servicing of electronic components. A service cover creates a neat appearance and discourages tampering. The E-frame profile lets you combine functionality, safety, security and clean design. E-frames are available for Sapa Doors 2050, 2060 and 2086.

Smart features give reassurance. An effective and practical entrance has to be welcoming as well as safe and secure.

Entrance with entry phone/access control system. Door in natural anodised finish with powder coated frames. Lock installed in frame. Reinforced rebate section.

E-frame 2086: Inside, with service cover open

E-frame 2086: Inside

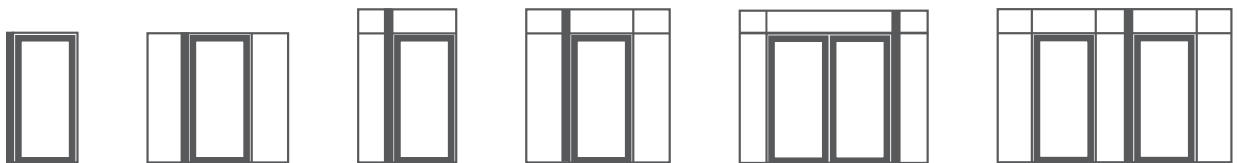

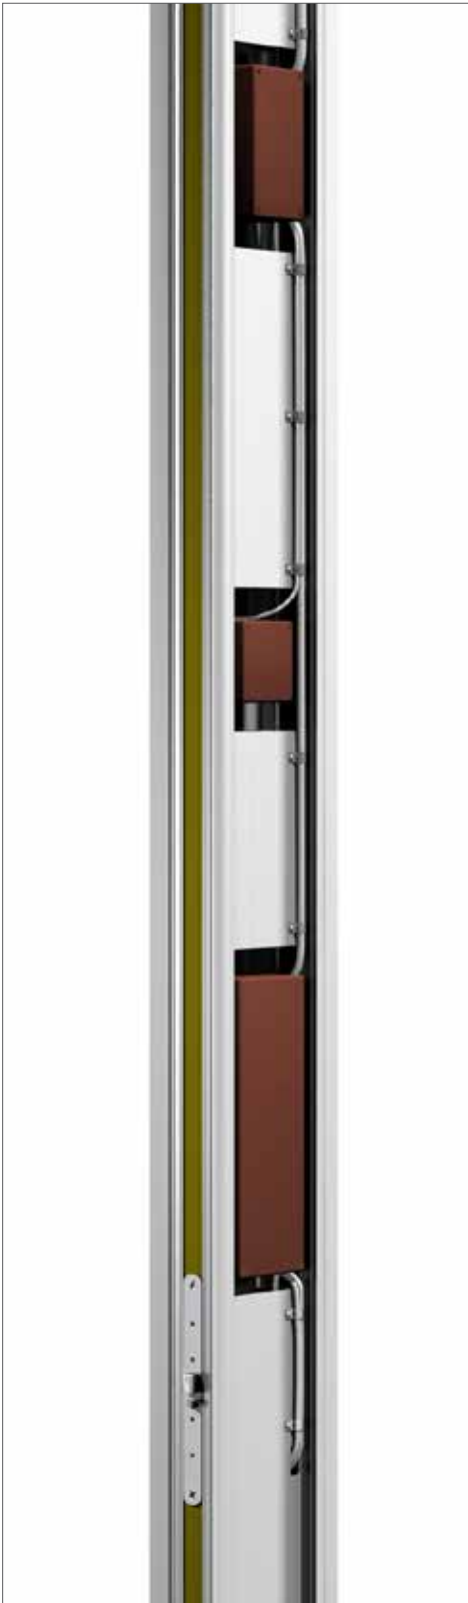

E-frame 2086: Outside

*Entrance with entry phone/access control system. Door 2060 with frames 3050, in clear anodised finish.
