# TEMPTATION

## / MINIMALISM AND MAXIMUM ERGONOMICS

TEMPTATION has been designed to be extremely ergonomic and adaptable, as well as having elegant aesthetics. As a result, the back of the handles is rounded, which provides an excellent grip and has a pleasant feel. This rounded design, along with the straight-line aesthetics at the front, create a uniform model that offers the perfect balance between functionality and maximum slenderness.

## / TEXTURE AND COLOUR

The handles in this collection are made of extruded aluminium, with a lacquered or anodised surface finish, and come in any of the TECHNAL range of colours.
